Height Corner cabinets – 17 ½", 31", 36"
- 7 finishes...Natural, White, Almond, Folkstone Gray, Camouflage, Light Maple, Dark Woodgrain

Flexible mounting system for access and relocation

- Cabinets mount off sloping garage floor for level maximum strength and holding power
- Off floor mount prevents nesting place for critters
- Eliminates water damage
- Easy access for sweeping
- Not attached to other cabinets so moving each cabinet to a different location is easy and quick

Durable construction for a lifetime

- Dove-tail joinery – strongest and most permanent joint made in carpentry and cabinet making.
- NO CAM LOCKS which are not suited for heavy shelf loads
- Furniture grade ¾" shelves rated for 200 lb. capacity with NO BOWING
- 3 FT. WIDE shelves available with 36" supporting ledge to prevent bowing

Expert consultation & installation for custom organization solution

- **FREE NO OBLIGATION** consultation with an authorized Garage Storage Designer
- Hassle Free! SOS trained professional installers complete most installations in a day's time.

Quality Materials

- Cabinet Frames: We use only ¾" premium grade M-2 industrial panels for the cabinet frames. This high-density particle board (48 lbs. per cubic ft.) is the standard for FURNITURE applications.
- Doors: 2 options
 - 1) Budget Friendly: 5/8" medium density fiberboard (mdf). MDF is also a 48 lb. per cubic ft. engineered wood product which offers a flat, smooth surface which is attractive unfinished or can be sealed or painted.
 - 2) Durable Melamine: laminate on all 6 surfaces is moisture resistant and cleans easily.
- Workbench Tops: Almond, gray or black melamine surface. Backers are adhered to protect the substrate from changes in humidity and to balance the panel construction.
- Hardware: Superior holding strength for the chosen substrate. European adjustable hinges assure doors will hang straight and open easily for years to come.
- Drawers: All drawers are made from MDF and are constructed with nails and brads and glued on-site. We use Eurorails which are rated at 100 lbs. capacity.

Satisfaction Guaranteed!
